

Camp Tinkergarten Season

How we play safely together this summer

PRE-SCREEN SELF ASSESSMENT

We review the emailed checklist and manage risks before we arrive.

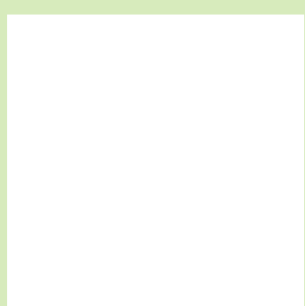

WASH HANDS

We wash our hands with soapy water when we arrive.

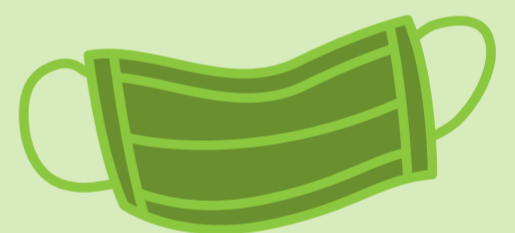

FIND YOUR FAMILY'S "NEST"

Each family has a spot in our circle that we call your "nest."

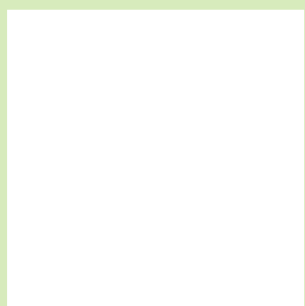

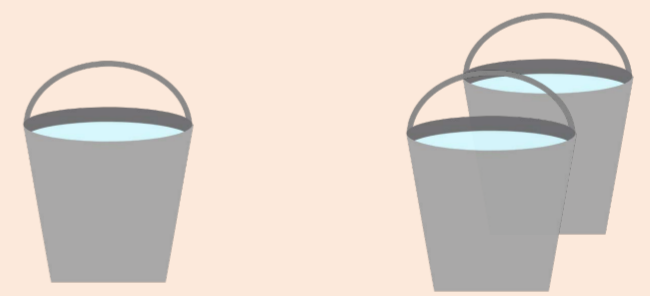

WEAR A MASK if not vaccinated

Wearing masks can help keep us and others safe. (Required for some ages in certain locations).

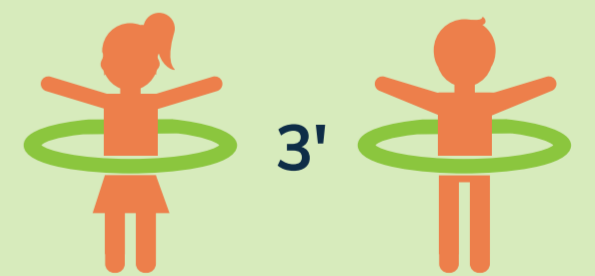

FAMILY SETS OF MATERIALS

We share play materials with our family or pod.

HOLD PERSONAL SPACE

As we play and explore, explorers do our best to maintain our 3-foot bubbles and keep friends safe.

4 R's can help kids learn to play safely together!

Remember: Outdoor spaces are the safest spaces in which to come together and play.

Remind: Remind kids to mind their space bubble in ways that are gentle, steady + fun.

Reason: Let kids know these extra steps help keep us and our friends even more safe.

Reinforce: Give praise and remind kids how caring it is to keep ourselves and friends safe.
