

TINKERGARTEN

Pre-Tinkergarten COVID Check

Thank you for helping to keep your Tinkergarten class community safe and healthy by reviewing this health checklist before every live session. Each week, before child(ren) and grown up(s) from your household or pod attend Tinkergarten in person, you **must** be able to answer “no” to the following two questions:

Please note that attending Tinkergarten indicates your consent to abide by [our approach to health and safety](#) and that everyone who plans to attend meets the criteria to attend that day. Compliance helps to ensure safety for our community. Non-compliance will cause risk and, if persistent, will result in a family not being able to participate.

1. Does anyone who plans to attend Tinkergarten have any of the following symptoms of COVID-19?

- Fever (100.0° Fahrenheit or higher), chills, or shaking chills
- Difficulty breathing or shortness of breath
- New loss of taste or smell
- Muscle aches or body aches
- Cough (not due to other known cause, such as chronic cough)
- Sore throat, when in combination with other symptoms
- Nausea, vomiting, or diarrhea when in combination with other symptoms
- Headache when in combination with other symptoms
- Fatigue, when in combination with other symptoms
- Nasal congestion or runny nose (not due to other known causes, such as allergies) when in combination with other symptoms

2. Has anyone who is planning to attend Tinkergarten recently been in "close contact" with anyone who has COVID-19?

The CDC defines [“close contact”](#) as being closer than 6 feet away from an individual who tests positive for COVID-19 for at least fifteen minutes. An infected person can spread SARS-CoV-2 starting from 2 days before they have any symptoms (or, for asymptomatic people, 2 days before the positive specimen collection date), until they meet the criteria for ending [isolation](#).

IF YOU ANSWERED YES TO EITHER OF THE ABOVE QUESTIONS YOU MUST REMAIN HOME FROM TINKERGARTEN, and utilize the pre-recorded class lesson and weekly content in your [My Tinkergarten dashboard](#).

We also strongly suggest that you consult with your physician to get proper medical support and care and to identify when it is safe to resume group, in-person activities. Please also reference the current, appropriate [CDC guidance about how to quarantine or isolate](#) after exposure or confirmed case of COVID-19.

NOTIFICATION of POSITIVE TEST

If you or anyone from your household or pod who participated in a Tinkergarten session should test positive for COVID-19, please notify us by email at support@tinkergarten.com to let us know. Depending on the risk associated, we may send an anonymous alert email to enrolled families.
